Awards

Photography Award : Awarded in Senior category during “Drishtiraaga-2014” on theme “People”
Poster Presentation Best Poster Award : By Computer Society of India /2015 , at Regional Student Convention, Region – IV

Profile

A programmer by mind , a designer from heart. In the quest to understand life, I discovered symmetry between code and design.I love to code and the structure that built it. Passionate about turning abstract ideas into meaningful digital experiences.

Experience

April 2023 – Present

SPARC Pvt. Ltd.

(Enrolled with
Mapscope Pvt. Ltd.)

UI/UX Developer | Graphic Designer

From concept and prototyping to delivering initial code for user-focused solutions.

June 2022 – April 2023

Indoplus Private
Limited

Worked for over 2.5 years at Reach Digitally, handling creative and visual design projects.

Feb 2018 – July 2019

Shilabs Private Ltd.

Graphics & UX Designer

Served as a Graphic Designer at Shilabs Pvt. Ltd. for approximately 1.5 years, focusing on creative visual content.

Projects

I've contributed to in my current role

SPARC PVT. Ltd. 2023 – Present

| **Automation of AIR Quality Monitoring System For Sterling IAQ Consultants**

Tech stack : Web based Monitoring System, Smart Report Generation | ReactJS, Spring Boot, PostgreSQL

Developed a modernized UI for Sterling IAQ Consultants' web application, enhancing user experience and operational efficiency. Prototyped designs in Figma and implemented them using React.js, incorporating intuitive navigation, data validation, and visualization tools to improve report generation and client interaction.

| **LAMS (Land Acquisition Management System)**

Tech stack : Web and Mobile based Monitoring System, Smart Report Generation | ReactJS, Spring Boot, PostgreSQL, OpenLayer Maps

Contributed to Design and prototype the Land Acquisition Management System, then developed the basic frontend using React.js. Implemented a map view feature to display layers, filter project areas, and manage related functionalities for enhanced visualization and interaction.

| **Forest Plantation Planning and Monitoring System By CAMPA (Compensatory Afforestation Fund Management and Planning Authority)**

Tech stack : Web based Monitoring System, Smart Report Generation | PHP, PostgreSQL, OpenLayer Maps

Designed and prototyped the concept, followed by basic development using PHP. Implemented a map view feature for visualizing plantation areas with split-screen views of pits and plantation plants for better monitoring and planning.

| **Minestracker (mining management application)**

Tech stack : Web and Mobile based Monitoring System, Smart Report Generation | ReactJS, Spring Boot, PostgreSQL, OpenLayer Maps

Conceptualized and prototyped the Minestracker mining management application (SaaS) for both mobile and web, then developed the basic frontend using React.js, ensuring a functional and user-friendly interface.

PRITIRANJAN MAHARANA

Web Designer and Developer

Possess comprehensive expertise across multiple disciplines in website development and maintenance, including web graphic design, user interface (UI) design, web authoring with standardized code and proprietary tools, as well as search engine optimization (SEO)
